SHARE IN OUR COLLECTIVE SUCCESS

We want everyone in the Flutter family to share in our collective, global success. So we're pleased to let you know that our Phantom Sharesave plan is back for 2024.

Phantom Sharesave gives you the opportunity to be part of a growing company. The plan is open to all colleagues, whether you've joined us on a permanent or a fixed-term basis. You can also apply if you've just joined us and you're still on probation.^{*}

Here's more about the plan and how it works.

*You can't apply for Phantom Sharesave if you're a contractor. You must be employed on 26 November 2024.

How Phantom Sharesave works

STEP 1

You will be allocated a number of Phantom Options taking into account the average savings amount (and the corresponding average number of options granted) in Sharesave 2024. We will tell you what the option price is. This is the share price on 25 November 2024 discounted by 25%.

STEP 2

STEP 3

At the end of three years, if the Flutter share price is higher than the option price, that's your profit which will be paid to you in cash.

How is Phantom Sharesave different to Sharesave?

The differences are:

- Phantom Sharesave is not a savings plan, so you won't make monthly contributions to the plan.
- A Phantom Option is a right which entitles you to receive (in cash) any increase in price between the option price which is set when the invitation goes out and the share price at the end of three years.

- tax authority on your behalf.

• You **can't use** your Phantom Sharesave to buy shares in Flutter Entertainment plc through the plan.

 You don't choose the number of Phantom Options you get. They are allocated to you taking into account the average amount your colleagues save in Sharesave.

• When you take your profit, **persona**l income tax and social security will **be due**. We'll pay this directly to the

Understanding shares

Phantom Options follow the Flutter Entertainment plc share price on the London Stock Exchange and as with all shares, their value will fluctuate up and down over the three years. In general terms, if we're performing well, you would expect our share price to rise during this period, and you would make a profit.

50 Phantom Options*. Let's say the share price option price after the 25% discount is set at £127.50.

As a result, Reena receives a cash payment of £2,625. That's the difference in price between £180.00 and £127.50, so £52.50 x 50 (her number of Phantom Options).

*We will confirm the number of Phantom Options you will be granted in December 2024.

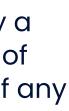

Remember past performance is not necessarily a guide to future performance. The performance of investments is not guaranteed, and the value of any investment can go down as well as up.

Good to know

Can I participate in more than one plan?

We run the Phantom Sharesave plan annually. As long as you **remain eligible**, and you are **within the plan limits**, you can participate in more than one plan. The value of your Phantom Options across all active Sharesave plans **must not exceed €500**.

If you move to another job within Flutter

If you relocate to another company in Flutter, your participation in the plan will **not be affected**.

If you leave Flutter

We'll be sad to see you go. If the reason you're leaving us is because you're retiring at the **specified age, are in ill health or have been made redundant** you will be able to exercise a reduced number of Phantom Options. If you leave for any other reason, your Phantom Options will lapse.

If you don't want to be in Phantom Sharesave anymore

You can withdraw at any time during the three years but by doing so **you'll forfeit any gain** that you could make.
